Education

2021	Programing JavaScript (Full Stack) TreeHouse Academy (2021- 2022)
2021	React + Redux Copmlete Guide udemy (2021- 2022)
2022	React Native - The Practical Guide
2022	React Native: Mobile App Development
2023	Complete React Native Bootcamp

Knowledge and Skills

- Proficient in React Native and Expo for high-performance mobile app development, with extensive experience in creating rich and complex applications. Skilled in React.js for web interfaces and Next.js for optimized server-side rendering and SEO advantages, ensuring exceptional user experiences.
- Advanced State Management and Backend Proficiency: Experienced in Redux and Context API for robust state management in diverse environments. Proficient in Node.js for backend development, including RESTful services and real-time database interactions, enabling seamless front-end and back-end integration.
- Innovative Mobile Application Development: Led the creation of an educational app focusing on vertical learning, emphasizing user-centric design principles and creative learning methodologies. Demonstrates a commitment to innovation and continuous learning within the technology sector.

Work Experience

React-Native Developer (2022- present)
Freelancer

- Spearheaded cross-platform mobile app development using React Native and Expo
- Emphasized seamless functionality across iOS and Android platforms
- Engineered an educational app with interactive modules and adaptive testing
- Prioritized features like offline access and social learning integration
- Managed full app lifecycle from concept to deployment with Expo EAS
- Integrated back-end services with Node.js for real-time data exchange
- Ensured data security and user privacy through OAuth authentication and encryption

Projects

- **WhatsApp Clone**
Created a functional clone of WhatsApp using React Native, incorporating features such as real-time messaging, media sharing, and group chats.
- **TikTok Clone**
Developed a TikTok clone with React Native, featuring video upload, playback, and social interactions such as likes and comments.
- **Vert App**
Educational App for Vertical Learning
Led the creation of an educational app focusing on vertical learning, emphasizing user-centric design principles and creative learning methodologies. Demonstrates a commitment to innovation and continuous learning within the technology sector.
